

LIVER DIDN'T ACT DIGESTION WAS BAD

**Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved
After a Few Doses of Black-Draught.**

Meadowville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. . . I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way, Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. Since writing the mention of wheat in this county found in another column of this issue, The Falcon learns that the wheat crop on the Ames plantation in this county was 2100 bushels and that one field of 22 acres threshed 700 bushels of grain. This is the largest yield we have heard of. Hamlett Cooke of Gallaway made an average of 16 bushels per acre on a thirty acre field. These yields show that we can profitably grow the cereal here and save transportation of flour to us.

Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my housework."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

WANTED—500 cords ash, poplar, 8 inches and up, 5 ft. 9 inches long; will pay \$7.50 per cord delivered. F. H. Lightfoot.

The house-wife in Somerville is to feel the effects of conserving labor in an entirely new way. The government authorities have asked the merchants of the United States to cut out useless delivery of good to their customers and the grocers of Somerville have answered the request by signing an agreement beginning next Monday no groceries of any kind will be delivered to purchases except over the counter. Town customers have long practiced calling grocers to send all purchases, no matter how small, and have been accustomed to having such deliveries made, so that every grocery store had to maintain a wagon and horse and a porter for the purpose of meeting this demand of their customers. After Saturday night of this week customers will have to carry home their purchases when made. Stores carrying hardware, drygoods, and furniture are not included, nor are the ice and coal dealers.

The Government

has requested that we make a special effort to have all farmers and housekeepers preserve ample eggs for use during the period of high prices in the late fall and early winter by using water glass to preserve eggs.

It has also requested us to call all farmers' attention to Sodium Fluoride to destroy lice on poultry. This has proven more effective than the so-called lice powders.

We will have these items in stock. Come in and talk this matter over with us.
